

E²H² Technologies, LLC

Capabilities Information Sheet

Summary Statement of Capabilities: E²H² Technologies, LLC (aka E²H² Technology Solutions and Blue Street Communications) is an outsourcing provider of custom e-learning strategies, technology training, software and business process documentation, Help systems, Web services, online surveys and assessments, usability studies, technology project management, and temporary help solutions for the technology industry.

Capabilities Description: We develop a full range of training curriculums, workflow and business process analysis, user assistance testing, custom tailored technical and marcom documentation, robust online Help systems, secure online surveys, Web site design and services, and software and user interface usability studies.

We customize solutions to meet your needs, whether you are a small business, government entity, or prime contractor. Our expertise lets you concentrate on day-to-day critical business demands while we focus on your time-driven, resource intense, projects. With our assistance, you will be able to leverage existing personnel to maximize other business endeavors during critical project development and implementation stages. E²H² is a 100% minority owned small business enterprise.
